Porteous and Stensrud Lodge Partners,

February 25, 2022

I am writing today to clarify and provide some important information with the changes of to the Public Health Orders for the public and how it impacts our homes.

1. Continuous masking, screening and social distancing remain a requirement for all staff and those visiting our homes. Medical grade masks are provided for use.
2. Staff and visitor rapid testing will continue to be offered and encouraged prior to entering the homes. Please see a staff member if you require support.
3. We continue to complete rapid testing on all of our elders in line with current Medical Health Officer and Public Health direction.
4. Proof of vaccination status is **NO LONGER REQUIRED** to access the Lodges. This is in line with Public Health Order direction for all SHA and affiliates.
5. Visitation remains at level two due to current outbreaks within our homes.
6. End of life elders will still have the opportunity for two family members present at a time. There is no limit to those individuals that can be identified to visit under these circumstances.

We want to thank you for your patience and understanding as we navigate this phase of the pandemic. We recognize and appreciate that the changes occurring for the public can create confusion for our communities. We are committed to sharing information as quickly as it becomes available.

Please do not hesitate to reach out if you have any questions,

Respectfully,

Laurie A. Marple RN
